

Yoshi Okaya

Professor of Chemistry
1967-1995

Crystallographic Pioneer

The Progress in Crystal Structure Determination over the Last Forty Years: A Memoir by a Man who Tried to Eliminate his Specialty, *Rigaku Journal*, **8**, 1 (1991).

Professor Okaya was a leader in the automation of X-ray crystallographic structure determination, from computer-controlled data collection to solution, refinement, and presentation of the final results.
