

Registration Location Report Southampton

About this report

This report shows the number of unique students who are enrolled in at least one course component at a given Stony Brook University location at a designated moment in a term. This report is used to determine how many students use each location. Since a student can be enrolled at multiple locations, totals may not necessarily add. All course components (lectures, labs, recitations, etc.) are considered separately, and all enrollments are included regardless of matriculation status or credit load. If a course has multiple components at different locations, the student is counted at each location. Students' enrollment in courses for careers other than their primary career are included in this report. The counts for these students will be duplicated (one for each career). The location field in PeopleSoft includes distinct values for "Online" and "Distance Learning" – these values are at times used interchangeably, but in some instances, "Distance Learning" can mean an off-site location (such as for off-campus research projects).

Because of the way students are counted, this report DOES NOT reflect official enrollment statistics that are reported to the federal government.
