Stony Brook Featured News

SBU Department of Neurology Needs Your Help!

Researchers at Stony Brook Medicine need your input on an emergency care research study of bleeding in the brain. Stony Brook University Hospital is joining researchers at more than 100 other hospitals across the United States and other countries to conduct a research study of bleeding in the brain called FASTEST. This research study may affect you or someone you know, and we need to find out ahead of time what the community thinks about it. THANK YOU for your help and time in completing this survey.

There are no known risks involved in participating in this survey. Your participation in this survey is completely voluntary. You can scroll down to view a brief video (~ 2 minutes) (click on the picture of an arm receiving medication) and then complete the survey by using the link below. For more info, please contact the study team listed.

Survey link: <https://www.buildclinical.com/study/stonybrook-fastest>

Study Contact: FASTEST_trial@stonybrookmedicine.edu or (631) 444-9083
