

ADVANCED ENERGY 2012

The Premier New York State Partnership of Energy Conferences

WITNESS THE FUTURE OF CLEAN ENERGY

OCTOBER 30-31 2012 • JACOB K. JAVITS CONVENTION CENTER • NEW YORK • NY • USA

This fall, New York City will host a landmark event vital to anyone concerned with energy and the environment. **Advanced Energy 2012** will attract technology innovators, regulators, policy makers, energy providers and business leaders – the people who are shaping the future of energy in the U.S. and around the world.

The Advanced Energy Conference – New York State's largest advanced energy event – has joined with other energy conferences from across the state to create **The New York State Partnership of Energy Conferences**. This groundbreaking initiative provides an unprecedented opportunity to learn, share and network.

Now in its 6th consecutive year, the Advanced Energy Conference has attracted thousands of participants from industry, government and academia, and brought them together with innovators and leaders from every area of energy research. With the addition of partner conferences, **Advanced Energy 2012** will easily surpass its successes in the past.
